My dear Girls

I suppose you are back in Hiawatha by now we have heard nothing since the Telegram came hope you had a pleasant time and fine ride. Pop rather looked for you Yesterday he said I think they will come this way I don't know why he did. I suppose you got the Oral school letter the Check I think I sent it right away am anxious to hear about your trip and what you did with Baby and if the car went alright of course it would after going through the pasture I know we will have a letter in morrow.
